I. Abstract

This request is for extension of a currently approved information collection.

On October 21, 1998, the President signed into law The American Fisheries Act, 16 U.S.C. 1851 (AFA). The AFA established a limited access program for the inshore sector of the Bering Sea and Aleutian Islands (BSAI) pollock fishery that is based on the formation of fishery cooperatives around each inshore pollock processor. The National Marine Fisheries Service (NMFS) issues a single pollock allocation to each cooperative and the cooperative may make sub-allocations of pollock to each individual vessel owner in the cooperative.

- ◆ With respect to the fisheries off Alaska, the AFA Program is a suite of management measures that fall into four general regulatory categories:
- ◆ Limit access into the fishing and processing sectors of the BSAI pollock fishery and that allocate pollock to such sectors (50 CFR 679.64).
- ◆ Govern the formation and operation of fishery cooperatives in the BSAI pollock fishery, including filing of cooperative contracts (50 CFR 679.61 and 679.62).
- ◆ Protection of other fisheries from spillover effects from the AFA (50 CFR 679.64).
- ◆ Govern catch measurement and monitoring in the BSAI pollock fishery, including filing of annual reports and completing and submitting inshore catcher vessel

pollock cooperative catch reports (50 CFR 679.63).
